

## And ye shall know the truth, and the truth shall set you free; John 8:32

To those who love America,

My writings on socialist values and goals came about by being able to recognize and analyze the propaganda our media and elected officials use to control and manipulate us. A friend of mine came over to my house recently wanting to talk about finding some work together. In the old days we hung a lot of sheetrock together so we decided to try and hustle up some work. In the course of conversation he told me that he did not watch the news anymore because most of the news was just bad and depressed him. I explained to him that if he knew the intent and methods used by today's media to bring about a socialist government utopia and knew what to watch for, he would be able to see through the lies and recognize the strategies employed.

There is nothing to be depressed about if you can see through what's being done to try and control you; hence the title of this letter.

For those of you who are 'still awake' and want to see America as the founding fathers saw this nation – they had their own dreams about freedom, liberty, a chance to speak one's mind and worship God as they saw fit - to enjoy the labor of 'one's own hands' and not - someone else living off your labor (wealth redistribution).

To make this happen, you the reader will have to participate. You see, I believe this is the last call for America. Will we continue to be a nation where there is freedom and liberty? The 2010 elections will be either a new beginning or the complete destruction of the American dream. A dream - That's exactly what this nation was to the founding fathers. I for one have always been a dreamer. It is very simple to decide who to elect in 2010, if they believe in abortion and voted for the stimulus package - they need to go.

The rest of this letter is to my fellow Christians.

Why abortion? Proverbs chapter 6 verses 17-19. "We cannot be blessed as a nation as long as innocent blood is being spilled in this land. " We have the leaders in this nation today because you have remained silent, one who is so stupid he admits it's above his pay grade; or voted for someone who does believe in abortion.

To those who have supported someone who believes in abortion, you might not know this, but you will be held accountable for siding against the Lord. You might have thought that through these people you might profit in some way, but you bought a ticket to hell, for you surely will be held accountable. If you don't believe me read your Bible. "How can two walk together unless they be agreed?" It's not for me to condemn, but to open eyes; for God has not changed His mind and He is not a progressive. If He said it in the beginning He means it in the end and has not changed His mind. Like the title says "Ye shall know the truth and the truth shall set you free. "
